

Pranoy Acharyya

Frontend Developer | React, Next.js, WordPress | Scalable Web Applications

9593475173 • Kolkata, West Bengal, India • acharyapranoy@gmail.com • LinkedIn | Github

Frontend Developer specializing in React.js and Next.js, with hands-on experience in WordPress and WooCommerce. Skilled in building responsive, scalable, and user-focused web applications. Currently strengthening expertise in TypeScript, Redux Toolkit, and API integration while following modern frontend best practices. Passionate about learning through real-world projects and growing into a full-stack developer. Open to junior frontend roles and opportunities to build impactful products.

KEY SKILLS

- React Js
- HTML, CSS
- Tailwind, Bootstrap
- Supabase, Neon (PostgreSQL)
- Wordpress, Elementor
- NEXT JS
- Javascript
- ShadcnUI, Material UI
- Redux Toolkit, Tanstack Query

PROJECTS

CollabHub

Live Demo: <https://collabhub-rho.vercel.app/>

Tech Stack:

React.js, Supabase, Stripe, ShadCN UI, Tailwind CSS, Framer Motion

Key Features:

- Developed a scalable multi-workspace application with role-based access control
- Built team management system with user invitations and role assignment
- Integrated Stripe payment system for subscriptions with webhook-based automation
- Implemented secure authentication and backend logic using Supabase
- Designed responsive and intuitive UI with ShadCN UI and Tailwind CSS
- Improved user experience through interactive animations with Framer Motion

Doctor Appointment Site

Live Demo: <https://pranoy-doctor-appointemnt-site.vercel.app/>

Tech Stack:

Next.js, Prisma, Neon DB, Clerk, Vonage API, Tailwind CSS, ShadCN UI

Key Features:

- Developed a scalable full-stack healthcare platform with appointment scheduling and real-time video consultation
- Implemented secure authentication and session handling using Clerk
- Designed efficient, type-safe backend using Prisma ORM with Neon serverless database
- Integrated Vonage Video API to enable reliable real-time communication
- Built modular, reusable UI components with Tailwind CSS and ShadCN UI
- Optimized application performance and routing using Next.js App Router

MIND

Live Demo: <https://blog-cms-rho-seven.vercel.app/>

Tech Stack:

Next.js, Supabase, Redux Toolkit, Tailwind CSS, ShadCN UI

Key Features:

- Built a scalable blog platform with authentication, role-based access, and secure data handling
- Developed admin dashboard for full CRUD operations on blog content
- Integrated TinyMCE for rich text content creation and media handling
- Implemented Supabase RLS to ensure secure and controlled data access
- Designed dynamic blog pages with optimized routing using Next.js App Router
- Managed application state and form validation using Redux Toolkit and React Hook Form
- Delivered a responsive UI with theme switching (dark/light mode)

Adidev Farms

Live Demo: <https://farmsadidev.com/>

Tech Stack:

WordPress, Elementor, WooCommerce, PHP, Custom Hooks & Shortcodes

Key Features:

- Developed a fully functional e-commerce website for a farm-based business offering dairy and organic products
- Implemented WooCommerce for product management, cart, and order processing
- Built custom layouts and reusable components using Elementor
- Utilized WordPress hooks and shortcodes to extend functionality and customize features
- Designed product listing and detail pages for seamless user experience and navigation
- Integrated blog section to support content marketing and SEO strategies
- Optimized website structure for performance, responsiveness, and usability across devices

PROFESSIONAL EXPERIENCE

Junior Web Developer, WEBSKITTERS TECHNOLOGY SOLUTIONS PRIVATE LIMITED, Kolkata, West Bengal, India
